CONTENTS/SOMMAIRE

FEBRUARY/FÉVRIER

Editorial Policy/Orientation de la Revue	iii
Instructions to authors	v
Recommandations aux auteurs	vii
ARTICLES	
Andrzej S. Nowak and Raymond J. Taylor Reliability-based design criteria for timber bridges in Ontario	1
Borg Madsen and Sidney Mindess The influence of the energy stored in the test apparatus on the strength of lumber	8
Jean Bérard et Richard Roux La viabilité des bétons du Québec: le rôle des granulats	12
Glenn A. Morris Engineering education in Canada—the early years	25
Warren B. Kindzierski and Steve E. Hrudey Effects of phosphorus removal chemicals upon methane production during anaerobic sludge digestion	33
M. Hanif Chaudhry and Andreas M. Schulte Computation of steady-state, gradually varied flows in parallel channels	39
V. W.-T. Cheung and W. K. Tso Eccentricity in irregular multistorey buildings	46
Jon J. Wyatt and Satish C. Sharma Classification of Saskatchewan highways according to type of road use: testing of a model	53
Said M. Easa Development of a simulation model for the Port of Thunder Bay	59
E. H. Fahmy and Hugh Robinson Analyses and tests to determine the effective widths of composite beams in unbraced multistorey frames	66
K. P. Ratzlaff and D. J. L. Kennedy Behaviour and ultimate strength of continuous steel plates subjected to uniform transverse loads	76
Edward McBean, Michael Fortin, and Jack Gorrie A critical analysis of residential flood damage estimation curves	86
Boregowda Shivalingaiah and William James Storm water pollution modelling: first-order atmospheric dustfall processes that affect runoff quality	95
T. W. K. Chan, T. Rezanoff, and M. U. Hosain Behavior of headed shear studs in stub-girder stub assemblages	106
DISCUSSIONS	
M. B. Fielding An analysis of pipe breakage in urban water distribution networks: Discussion	116
I. C. Goulter An analysis of pipe breakage in urban water distribution networks: Reply	117
J. C. Jofriet Concrete water tanks in Ontario: Discussion	117
W. M. Slater Concrete water tanks in Ontario: Reply	118
BOOK REVIEW/CRITIQUE DE LIVRE	
Fédération Internationale de la Précontrainte Practical design of reinforced and prestressed concrete structures: Reviewed by Denis Mitchell	120

APRIL/AVRIL

ARTICLES	
Jean-Paul Beaudry and André P. Langlois Multiparametric sensitivity analysis of energy production projects	121
Con Desplanque and Dale I. Bray Winter ice regime in the tidal estuaries of the northeastern portion of the Bay of Fundy, New Brunswick	130
R. Frederking, E. Wessels, J. B. Maxwell, S. Prinsenbergh, and M. Sayed Ice pressures and behaviour at Adams Island, winter 1983/1984	140
M. Frenette et P. Y. Julien LAVSED-I — Un modèle pour prédire l'érosion des bassins et le transfert de sédiments fins dans les cours d'eau nordiques	150
P. Y. Julien and M. Frenette LAVSED-II — A model for predicting suspended load in northern streams	162
J. R. Murat et R. Tinawi La capacité portante à court terme de la glace de mer colonnaire annuelle	171
R. A. Spencer and Borg Madsen Duration of load tests for shear strength	188
Guy Morin, Denis Couillard, Daniel Cluis, H. Gérald Jones et Jean-Maurice Gauthier Modélisation des solides dissous en rivière à l'aide des composantes de l'écoulement	196
J. R. Weeraratne, Lloyd Logan, and T. E. Unny Performance evaluation of alternate policies on reservoir system operation	203
Shamim A. Sheikh and Michael W. O'Neill Long-term behavior of expansive concrete drilled shafts	213

Borg Madsen and Andrew H. Buchanan	Size effects in timber explained by a modified weakest link theory	218
Thomas W. Constable and Geoff Ross	Trace element leaching in bench-scale recirculating ash transport systems	233
Satish C. Sharma, Akhtarhusein Tayebali, and Afifi H. Soliman	Some implications of the new speed-volume curves to highway user cost and sizing of roads	241
Donald H. Burn and Edward A. McBean	Linear stochastic optimization applied to biochemical oxygen demand - dissolved oxygen modelling	249

NOTE

Charles R. Neill	Unusual Canadian floods and the Creager diagram	255
-------------------------	---	-----

BOOK REVIEWS/CRITIQUES DE LIVRES

W. H. Mosley and W. J. Spencer	Microcomputer applications in structural engineering: Reviewed by E. Whitman Wright	258
Radu Priscu, Adrian Popovici, Dan Stematiu, and Constantin Stere	Earthquake engineering for large dams: Reviewed by Thomas Vladut	259
F. M. Mazzolani	Aluminum alloy structures: Reviewed by Cedric Marsh	260

JUNE/JUIN

ARTICLES

G. S. Bhuyan, M. Arockiasamy, K. Munaswamy, and O. Vosikovsky	Finite element analysis of cracked and uncracked tubular T-joint	261
J. H. Rainer and J. C. Swallow	Dynamic behaviour of a gymnasium floor	270
M. S. Cheung, R. Jategaonkar, and Leslie G. Jaeger	Effects of intermediate diaphragms in distributing live loads in beam-and-slab bridges	278
W. E. Watt, K. C. A. Chow, W. D. Hogg, and K. W. Lathem	A 1-h urban design storm for Canada	293
N. K. Becker, H. R. Patterson, and J. A. McCorquodale	Design and construction of a 3 km (2 mi) long shoreline protection system for the City of Luna Pier	301
Y. Ouellet, P. Dupuis et A. Soulaïmani	Modélisation d'un écoulement tourbillonnaire en régime permanent	310
Abdelrahim K. Dessouki and Gerard R. Monforton	Stability analysis of soil-steel structures	319
Sidney H. Simmonds and Brian W. Doblanko	Shear-moment transfer in flat plates	327
Alan A. Smith and Paul B. Ashenhurst	RIVER4: a program for flow profile computation	335
B. Rabinowitz and W. K. Oldham	Excess biological phosphorus removal in the activated sludge process using primary sludge fermentation	345
P. Marceau, D. Cluis et G. Morin	Comparaison des performances relatives à un modèle déterministe et à un modèle stochastique de température de l'eau en rivière	352
C. Booy and L. M. Lye	Accumulated basin storage as a factor in the correlation structure of annual peak flows on the Red River	365
Ronald A. Macnaughton	Wind resistance of a narrow partially built house	375

NOTES

G. S. Bhuyan, M. Arockiasamy, and K. Munaswamy	Three-dimensional stress analysis of tubular joint using rezone technique	382
Beni P. Sangal	Recursion formula for unit hydrographs	386
B. G. Hutchinson	A note on the stabilities of work trip travel demands in Toronto	389

DISCUSSIONS

P. Y. Julien	Comparison of MOBED and HEC-6 river flow models: Discussion	396
B. G. Krishnappan	Comparison of MOBED and HEC-6 river flow models: Reply	397

BOOK REVIEWS/CRITIQUES DE LIVRES

Institution of Civil Engineers	Computer technology in construction: Reviewed by Hira N. Ahuja	398
R. N. Swamy (editor)	New concrete materials, Vol. 1: Reviewed by V. M. Malhotra	398
W. F. Chen and D. J. Han	Tubular members in offshore structures: Reviewed by Richard G. Redwood	399
H. O. Madsen, S. Krenk, and N. C. Lind	Methods of structural safety: Reviewed by Hid Grouni	400
C. J. F. P. Jones	Earth reinforcement and soil structures: Reviewed by M. Devata	400
Neils J. Gimsing	Cable supported bridges, Concept and design: Reviewed by Roger A. Dorton	401
Institution of Civil Engineers	Coastal engineering research: Reviewed by J. J. Sharp	402

OCTOBER/OCTOBRE

ARTICLES

Willi H. Hager L'écoulement dans des déversoirs latéraux	501
D. L. Caverson, G. R. Finch, and D. W. Smith Ozone disinfection of primary effluent using a stirred tank reactor	510
Arthur B. Sparling and David L. Woytowich A new concept of upflow clarification in activated sludge separation	517
Ahmed M. El Khashab Form drag resistance of two-dimensional stepped steep open channels	523
Alan J. Glass and Neal M. Holtz A relational database for building structures	528
Denis Mitchell, John Adams, Ronald H. DeVal, Robert C. Lo, and Dieter Weichert Lessons from the 1985 Mexican earthquake	535
Michel Massiera et Claude Pelchat Construction de l'évacuateur de crues Opinaca	558
H. W. Campbell and T. R. Bridle Sludge management by thermal conversion to fuels	569
S. Elkelish and Hugh Robinson Effective widths of composite beams with ribbed metal deck	575

NOTE

Ming G. Lau Torsional axisymmetric finite element model for problems in elasticity	583
---	-----

DISCUSSIONS

R. H. Ferhian Seismic loading provision changes in National Building Code of Canada 1985: Discussion	588
A. C. Heidebrecht and W. K. Tso Seismic loading provision changes in National Building Code of Canada 1985: Reply	588
